

UNLOCK POSSIBILITY

WHY AERIE?

Our team is dedicated to getting things done on time with a keen attention to detail.

We design for people, not data

The best technology in the world won't help your business if it doesn't work for your employees. Solutions must be intuitive, clean, and easy to learn and operate. We help you get there.

We know our stuff

We do the upfront work to make sure we develop the right solution for you. Then we work with your team to ensure that new applications are onboarded smoothly.

We are flexible

We identify process gaps and design solutions because we listen. We listen and ask questions to truly understand what success looks like for your team.

We founded Aerie because we believe that our simple, smart and powerful solutions can help businesses meet their goals more effectively and efficiently.

Our team of professionals brings deep technology expertise along with insights and perspective from industries as diverse as healthcare, education, architecture & construction, the arts, and government.

We make it our mission to understand your people, your data and your systems and craft solutions that will connect them together seamlessly into a smooth and successful operation ready to tackle the next big opportunity.

OUR EXPERTISE

Our mastery in the Microsoft Suite is more than proficiency - it's our identity.

Our team of specialists, each an expert in their respective domain, are ready to deliver exceptional results using the Power Platform, Dynamics 365, Azure, M365, and Microsoft Co-pilot.

With us, you're not just obtaining a service; you're unlocking new possibilities for your business's growth and efficiency.

OUR SERVICES

Business Application Services

We pride ourselves in user-centered design that ensure high levels of adoption and increased productivity for end users.

We offer expert development services for M365, D365, Power Platform, Teams, SharePoint and Azure environments.

Managed Cloud Services

We don't just manage your cloud environment, we optimize it.

Through proactive management, we keep a close eye on your cloud systems day in and day out. Our Fast Track to Microsoft Proactive Services and Maximize the Cloud Trainings are designed to help your team leverage the full potential of your tools.

Licensing & Migrations

We can help identify the right products and applications for your organization and uncover areas of savings.

Our team can help you leverage Office 365 features in ways that will improve your organization's productivity and business process.

WHAT THEY'RE SAYING

“I really liked their knowledge and style. They were really committed to understanding our needs and made recommendations that were better than what we could come up with on our own. They are good at what they do, and they are humble about it,. We can't wait to see what's next.” – Kevin Campbell, Keurig Dr. Pepper

“Aerie has a really great process, we loved working with their team to develop our new Intranet. It has made a massive difference in our company file management and ability to stay up-to-date with company news.“ – Erin McEnaney, Orvis

“With our new Aerie Accelerated Intranet we have **improved operational efficiency,** safeguarded our digital and physical assets and surpassed revenue goals. People no longer look at the platform and say, ‘I wish we could do this.’ Instead, they ask, ‘Can we do this?’ It's a big different.” – Media Oakes, Subaru of Indiana

THANK YOU.
